HCI ENERGY

ANNOUNCING THE
POWER CABINET

A Smart, Battery-first Power Platform with Integrated Power Management, Remote Monitoring, and Data Analytics

Built-in Climate Control

Equipment Rack

Accommodates customer equipment or additional batteries

Zero-glitch Power Module (ZPM)

- Manages and optimizes power sources and outputs
- Battery-first architecture = zero down-time
- Integrated Lithium-ion batteries
- Operational visibility
- On-site data collection
- Remote VPN accessibility
- Automated reporting
- Data-driven alerts

"" Whether it's P25, 5G, or broadband, communications can't go dark when the power does. HCI Energy's Power Cabinet makes sure they won't.
