RESILIENT POWER FOR MISSION CRITICAL COMMUNICATIONS

Zero-glitch Power Module (ZPM)

The cornerstone of every HCI solution, the ZPM delivers non-stop power with battery-first architecture, manages and optimizes multiple power sources, and provides operational insight with on-site data collection and remote monitoring.

Power Cabinet

All the benefits of the ZPM in a self-contained, climate-controlled cabinet with equipment rack.

10' Hybrid Power Shelter

The benefits of the ZPM and Cabinet in a more robust package! Multiple integrated power sources. Rugged walk-in enclosure. Ideal for off-grid sites.

20' Hybrid Power Shelter

The ZPM, Cabinet, and 10' Shelter benefits + up to 4 equipment racks. Redundant HVAC and dual generator options.
