

WHEN EVERY SECOND COUNTS, OUR POWER NEVER QUILTS!

Nonstop Backup and Turnkey Power for Public Safety, Emergency Response, and Critical Services

HCI Energy's renewable, hybrid power solutions keep vital communication systems running without a single second lost. Our smart, secure, and sustainable power systems alleviate the issues and risks of commercial power and traditional backup power systems.

- ✓ Never lose a second of uptime!
- ✓ Easy install. Turnkey, drop-in-place power where you need it.
- ✓ Proven track record in public safety and services with repeat customers.
- ✓ Made in America. Multiple installations in multiple states.
- ✓ Multiple inputs. Multiple outputs.
- ✓ Reliability and redundancy with battery-first architecture.
- ✓ Remote monitoring.
- ✓ Reduced maintenance.
- ✓ Integrated renewables (optional).
- ✓ Compliant with GSA schedules and sole source purchasing.

“This technology has given us much more capacity, flexibility, and protection from the issues and risks associated with relying on commercial power and traditional backup power systems.”

Statewide Interoperability Coordinator, West Virginia

HCI'S ZERO-GLITCH POWER MODULE™ (ZPM)

Go beyond traditional UPS back-up with HCI Energy's ZPM. The ZPM is also integrated into every HCI power system.

HCI HYBRID POWER SHELTER™

HCI Energy's Hybrid Power Shelter is a turnkey powerhouse that incorporates everything necessary to bring continuous, reliable power to even the most remote and rugged locations.
