

EMPOWERING TRIBAL COMMUNICATIONS WITH RAPIDLY DEPLOYED TURNKEY POWER

Respecting Traditions While Supporting Equitable Internet Access for Tribes

HCI Energy is dedicated to helping tribal communities obtain broadband access with rapidly deployed, turnkey hybrid power delivered anywhere. With experience collaborating with tribal communities, we understand the urgency and the government programs that support these efforts and work collaboratively to provide solutions that can be implemented quickly.

- ✓ Proven track record with Tribal entities.
- ✓ Non-stop, hybrid power to broadband and critical communications.
- ✓ Accelerated access to high-speed internet.
- ✓ Delivered ready to deploy anywhere with integrated renewable options.
- ✓ Designed for harsh climates.
- ✓ Multiple power inputs. Multiple power outputs.
- ✓ Reliability and redundancy with battery-first architecture.
- ✓ Remote monitoring.
- ✓ Reduced maintenance.

“During the storm, power was down, but thankfully HCI’s integrated Hybrid Power Shelter was able to immediately power the communications equipment for four days and could have kept running for several weeks.”

Alaska Tribal Broadband

HCI’S ZERO-GLITCH POWER MODULE™ (ZPM)

Go beyond traditional UPS back-up with HCI Energy’s ZPM. The ZPM is also integrated into every HCI power system.

HCI HYBRID POWER SHELTER™

HCI Energy’s Hybrid Power Shelter is a turnkey powerhouse that incorporates everything necessary to bring continuous, reliable power to even the most remote and rugged locations.

Smart, renewable power for critical infrastructure anywhere.
